SUMMARY

- Results-driven and cooperative team player with strong organizational and multitasking abilities, capable of managing multiple academic and technical projects simultaneously while maintaining accuracy and meeting deadlines. Adept at prioritizing tasks, streamlining workflows, and collaborating effectively with peers and faculty to achieve project objectives.
- A technology-focused postgraduate student currently pursuing a Master's degree in Computer Applications, with strong skills in programming, problem-solving, database management, and web development. Knowledgeable in aligning technical solutions with practical requirements to improve system efficiency and user experience.
- Demonstrates the ability to manage projects from concept to completion, ensure quality outcomes, and continuously enhance skills through hands-on learning and innovation. Seeking an opportunity to contribute technical expertise and enthusiasm to a growth-oriented organization while further developing professional competencies.

EDUCATION

Master of Computer Application 2025-2027

- Abasaheb Garware College pune 411030
- Savitribai Phule Pune University

Bachelor of Computer Science (B.Sc CS) 2022- Mar 2025

- Abasaheb Garware College pune 411030
- Savitribai Phule Pune University

12 th Class - Science 2020-2022

- Maharaja Jivajirao Shinde Mahavidyalay, Shrigonda 413701
- Maharashtra State Board of Secondary & Higher Secondary Education, Pune

10 th Class 2019-2020

- Sharda Vidya Niketan Shrigonda 413701
- Maharashtra State Board of Secondary & Higher Secondary Education, Pune

SKILLS

- Python • JavaScript • Java • C++ • C • HTML • CSS • BootStrap
- PHP • Node.js • Express.js • MySQL/SQL • MongoDB • React.js • GitHub

LANGUAGES

• English	• Marathi	• Hindi
★★★★	★★★★★	★★★★★

ACHIEVEMENTS

- **Certificate of Participation** - CSA Interface 2025-26 (MES Abasaheb Garware College Pune)
 - **Certificate of Participation** - CSA Interface 2023-24 (MES Abasaheb Garware College Pune) (InterCollegiate Project)
 - **Certificate for volunteering** - Door step School Foundation
-

PROJECTS

1. AI-Powered Career Development Platform (CareerForge AI)

Resume Builder and Mock Interview

Tech Stack : React 19, TypeScript, FastAPI (Python), MongoDB, OpenAI API, Google Gemini Pro, Clerk Auth.

- **Developed a comprehensive career platform** featuring an AI-enhanced resume builder and intelligent mock interview simulator, serving over 1,200 active users.
- **Integrated OpenAI & Google Gemini APIs** to provide real-time resume scoring (ATS optimization), bullet point generation, and context-aware interview questions.
- **Built a responsive frontend** with optimal state management and a robust FastAPI backend handling asynchronous tasks and complex data processing.
- **Implemented secure authentication** via Clerk and data persistence using MongoDB for user profiles and interview history.

2. Real-Time Paper Trading Simulation Platform

Paper Trading Simulation

Tech Stack : React, Python (Flask), MongoDB, NSE Data Integration.

- **Engineered a full-stack stock trading simulator** allowing users to practice trading strategies with virtual currency using real-world market constraints.
- **Developed a RESTful Flask API** to manage user portfolios, execute buy/sell orders, and track transaction history in a MongoDB database.
- **Integrated live market data fetching** (NSE Symbols) to simulate authentic price movements and calculated real-time profit/loss metrics.
- **Designed a secure login/registration system** to maintain individual user sessions and portfolio states.

3. Real-Time Chat & Video Calling Application (WhatsApp Clone)

wp clone

Tech Stack : React, Node.js, Socket.io, PeerJS (WebRTC), Vite.

- **Built a real-time communication application** supporting instant messaging and low-latency audio/video calls tailored for seamless user interaction.
- **Implemented WebRTC via PeerJS** to establish peer-to-peer connections for high-quality video streaming without intermediate servers.
- **Utilized Socket.io** for bi-directional event-based communication to enable instant message delivery and online status updates.
- **Optimized frontend performance with React hooks and Vite**, ensuring a smooth and responsive user experience across devices.

4. Personal Developer Portfolio

portfolio

Tech Stack : HTML5, CSS3, JavaScript.

- **Designed and deployed a responsive personal portfolio website showcasing** projects, skills, and resume to prospective employers.
- **Implemented modern UI/UX principles** with smooth scrolling, mobile-first design, and interactive elements to enhance visitor engagement.

5. Smart Campus Vehicle Entry & Management System

card entry

Tech Stack : Node.js (Express), MongoDB (Mongoose), React, HTML/CSS.

- **Developed a vehicle tracking system** for educational institutions to digitize entry/exit logs and enhance campus security.
- **Built a centralized dashboard** to monitor vehicle movements, manage authorized vehicle logs, and generate daily entry reports.
- **Implemented a REST API with Express and MongoDB** to efficiently store and retrieve vehicle records and driver information.
